

To whom it may concern,
I am a subscriber to XM radio, and am very concerned about your trying to limit my rights to purchase the radio programming I desire and depend on. XM radio provides me with a service that no other format can (or will) provide. To my understanding, America and the American way of life is based on freedom and capitalism. Basically, let the people have their choice and vote on the outcome (whether the voting is done at the ballot box or with the power of the purse, the end result should be the same.) I often use the traffic and weather channels when traveling on work or pleasure trips, something that is hard (if not impossible) to find on local radio stations, and the problem is further compounded when you don't even have a clue nor any way to find at the spur of the moment. I say that to say... I have voted with my dollar, and believe other Americans can make the same choices for themselves also, and do not need the help of government to decide what products and services we want or need. The freedom for the people, not the government, to choose our way of life, is what Americans are dying for every day... Please honor the men and women of today's armed forces as well as those of decades past, and reject NAB PETITION 04-160, allowing America her freedom!

Thank you for your time...
BRYANT R MCCALL
